## **Public Sector Executive Compensation Reporting – Fiscal Year 2013/14**

### ***Compensation Philosophy***

Royal Roads University (RRU) has a unique mandate in the public post-secondary sector, focused on providing demand-driven, high-quality, effective education and research that contribute to economic prosperity, social advancement and environmental sustainability, and aligns with the labour market needs of British Columbia. RRU offers relevant applied and professional education, providing continuous opportunities to learn and transform lives and careers.

RRU is guided by a business model that ensures long-term financial sustainability. Consistent with this model, the Board of Governors has set a financial framework that ensures that the university's cost structure does not exceed 95% of revenues in any given year.

The university's HR strategy is fully integrated with its business plans to ensure that RRU maintains an efficient, flexible and affordable workforce, taking a deliberate approach to organizational design, so that it is structured, at both the managerial and business-unit levels, to achieve alignment and ensure outcomes and long-term objectives are met.

Through this strategy, the university promotes an organizational culture of high-performance and customer focus, fosters an engaged and healthy workforce, and provides a transparent, equitable and affordable framework for its total rewards strategy.

Fundamental to both its business philosophy and its position on total rewards, RRU strives to maintain its competitiveness in relation to the appropriate benchmarks in the external labour market, and link compensation to performance-based outcomes. Compensation decisions are informed by and framed within Government policy and directives. Within this context, RRU's compensation plans also consider financial performance and are evaluated on an annual basis, ensuring that they are aligned with the university's long-term financial sustainability.

RRU's approach to compensation planning considers the composition of the university's entire workforce: non-unionized employees (who comprise more than 70% of the total workforce), the Canadian Union of Public Employees Local 3886 (CUPE), Royal Roads University Faculty Association (RRUFA), numerous contracted associate faculty, and other contractors. Specific compensation plans for the CUPE and RRUFA are bounded by their respective collective agreements.

RRU compensation plans or substantive changes to existing compensation plans require university Board of Governors approval, University Public Sector Employers' Association (UPSEA) approval, and Public Sector Employers' Council (PSEC) approval prior to implementation.

RRU provides the same group benefit package to all its employees. Participation in the College Pension Plan is mandatory at RRU for senior administration /management employees and all academic staff. Similarly, all other regular employees must participate in the Municipal Pension Plan.

### ***Executive Compensation***

RRU has not paid any other compensation to the President or any senior executive other than as fully disclosed in the annual executive compensation reporting standards.

Compensation for all senior executives is currently frozen, until reviewed by Government.

- **President**

The President's compensation, as reflected in a five-year contract (to June 30, 2017), was approved by PSEC in February 2012, and remains in effect until reviewed by Government.

- **Executive**

Consistent with the terms and conditions set out in individual contracts, merit bonuses can be awarded to executives as re-earnable lump sum amounts based on the achievements of the university, combined with individual performance.

Academic leaves (sabbatical) are provided to executives responsible for the academic program at the successful completion of the initial five-year terms of employment. The executive shall be entitled to a six-month sabbatical to be paid at the maximum salary level of a full professor in effect at that time.
