Total Compensation Philosophy

The College of New Caledonia's (CNC) total compensation program is a framework to assist the institution attract and retain qualified exempt employees and is designed in a fiscally responsible manner in support of our mission, vision, values and culture, with flexibility to respond to changing and unique circumstances.

The Guiding Principles for CNC's total compensation programs is as follows:

Performance – Compensation programs support and promote a performance-based organizational culture, though the College does not provide performance-based bonuses or other forms of variable pay.

Differentiation – Differentiation of salary is supported where there are differences in the scope of the position within the institution and/or superior individual/team contributions by employees, within the parameters of established and approved pay bands.

Accountability – Compensation decisions are objective and based on upon a clear and well documented business rationale that demonstrates the appropriate expenditure of public funds in accordance with the Taxpayer Accountability Principles.

Transparency – Compensation programs are designed, managed and communicated in a manner that ensures the program is clearly understood by employees and the public while protecting individual personal information, except where disclosure is required by government regulation, statute or policy.

Sustainability – Total compensation programs are designed, administered and updated in a fiscally responsible manner that ensures that costs are affordable and sustainable over time and balanced against market forces.

CNC's total compensation program includes four main elements:

Compensation

 The College provides fair compensation, in the form of base salary, for the scope and breadth of job responsibilities and the education, competencies and experience that employees bring to their roles.

Benefits and Pension

- The College provides security and protection to employees and their families during their employment and co-contributes to their post-employment retirement plans. Benefits provided include:
 - Medical Services Plan
 - Basic Life Insurance and Accidental Death & Dismemberment Insurance
 - Short and Long Term Disability
 - Extended Health
 - Dental
 - Optional Life Insurance (employee paid)
 - College Pension Plan or Municipal Pension Plan (employee and employer contributions)

Career Development

 The College provides support for skill development, upgrades and other career development activities through access to professional development funds as well as project-based assignments for employees that provide opportunities for growth while achieving College operational goals and succession planning objectives.

Work/Life

• The College provides appropriate paid time off and other programs (i.e. Employee and Family Assistance Program) to help employees balance their work and personal demands.

The College comparator group includes organizations where we can attract qualified employees from and are at risk of losing qualified employees to. The College's core comparator group includes similar post-secondary and other public sector organizations in BC. For other jobs where talent may be needed from out-of-province and jobs that require skills from specific industries or from outside of the public sector, a secondary comparator group may be used.

The College considers the relative scope, responsibilities and complexities of jobs to ensure that compensation levels are fair and equitable. Market competitiveness is balanced with internal equity to ensure that the relative internal value of work is fairly recognized. Exempt employees are placed in salary pay bands that reflect their duties and responsibilities as evaluated under the College's factor based, point rating *Exempt Employee Job Evaluation Plan*. This job evaluation program is utilized to guide and support internal equity and ensure positions are placed appropriately within the compensation structure.

Governance and Administration

The College's Board of Governors is responsible for approving our overall compensation philosophy in addition to ensuring annual compensation reporting and disclosure is completed in accordance with Government policy and legislation. Human Resources is responsible for the day-to-day administration of the program. The President and Executive Committee (EC) is responsible for making recommendations to the Board for their endorsement of the Compensation Philosophy. Total compensation programs may be amended from time-to-time, as determined by the College, and as approved by the Board and the Minister.
