

May 26, 2020

Christina Zacharuk  
President and CEO of the PSEC Secretariat  
2<sup>nd</sup> Floor, 880 Douglas Street  
Victoria, BC V8W 2B7

Dear Ms. Zacharuk,

Re: University of Victoria Executive Compensation Disclosure Report

---

Please find attached the University of Victoria's 2019/20 Executive Compensation Disclosure Report.

This memo will confirm that the Board of Governors of the University of Victoria is aware of the compensation paid to its executives in the prior fiscal year and that the compensation information being disclosed is accurate and includes all compensation paid by the employer, foundations, subsidiaries, or any other organization related to or associated with the University.

Further, this report includes the value of any pre or post-employment payments made during the 12 month period before or after the term of employment and that the compensation provided was within approved compensation plans and complies with the April 2020 *Public Sector Executive Compensation Reporting Guidelines*.

Yours sincerely,

Beverly Van Ruyven  
Chair, Board of Governors  
University of Victoria

Copy: K. Kilbey, Associate Vice President Human Resources

University  
of Victoria

May 2020

## UNIVERSITY OF VICTORIA

### EXECUTIVE COMPENSATION REPORT

#### COMPENSATION PHILOSOPHY

British Columbia's research universities are world-class institutions, with international reputations for excellence in advanced research, teaching and learning, offering innovative undergraduate, graduate and professional programs. British Columbia's research universities operate and compete on an international stage, vying with other top-ranked universities for the world's best and brightest academic and administrative leaders.

While salary is an integral part of the compensation package, all components of compensation are considered in developing a compensation plan for each member of the executive that is relevant to the individual. By maximizing the relevance of each element of the package to the individual we achieve overall cost-effectiveness of the total package.

#### COMPENSATION PRINCIPLES

The following compensation principles were integrated into the university's updated and approved Executive Compensation Plan in January 2017 to ensure that the UVic can attract and retain the best possible candidates for executive positions while recognizing the fiscal values of the public we serve.

- Performance:** Compensation programs support and promote a performance-based (merit) organizational culture.
- Sustainability:** Compensation plans balance affordability with the ability to remain competitive in the relevant labour market (i.e., those organizations from which each university recruits and to which it loses people).
- Differentiation:** Differentiation of salary is supported where there are differences in the scope of the position within the organization and/or due to superior individual/team performance.
- Accountability:** Compensation decisions are objective and based upon a clear and well documented business rationale that demonstrates the appropriate expenditure of public funds. UVic is committed to a robust Board governance model for executive compensation and to work through UPSEA and PSEC during the development, costing, and renewal of executive contracts.

**Transparency:** Compensation Plans are designed, managed and communicated in a manner that ensures the program is clearly understood by employees and the public while protecting personal information. The *Public Sector Employers' Act* requires public sector employers to disclose publicly the terms and conditions of employment – including compensation – for public sector employees who have a base salary over \$125K. The *Act* also requires that employers make contracts of employment for these employees available for inspection during regular office hours. Senior Executive compensation actually earned is publicly disclosed annually.

## **SALARY**

The President's base salary is established at the outset of the contract and takes into consideration salaries paid at other comparable Canadian universities and any legislated total compensation maximums for Presidents established by the provincial government. These universities are intended to represent the market in which we are competing for university presidents. For Vice-Presidents, our salary philosophy is to develop a pay band that is also reflective of the market in which we are competing, particularly salaries paid at other comparable Canadian universities. To establish these salary ranges, the University conducts a national survey of the comparable Canadian Universities. Depending on the position, other comparators or benchmarks may include B.C. Public Sector organizations and other Provincial jurisdictions.

Surveys are conducted on an "as required" basis, as determined by the Compensation and Review Committee of the Board for the President and as determined by the President for the Vice-Presidents. For cost-effectiveness these surveys are often done at the same time.

For Vice-Presidents, salary ranges are adjusted as a result of market surveys and/or the amount of certain economic increases. Economic increases typically reflect the increases applied to other professional/academic employees at the University of Victoria and are normally applied annually on July 1. The current salary ranges are effective July 1, 2019.

## **MERIT PAY**

Annual objectives are put in place for all members of the Executive. In the case of the President, the setting of objectives and how they will be measured is determined by the Board of Governors in discussions with the President. The detailed procedure for the annual review of the President is found at Schedule A of the 2017-2023 contract of employment. The current, approved contract includes scheduled salary increases of a fixed percentage per year throughout the term. These increases will proceed unless the Board decides, in its sole discretion, to withhold some or all of the increase following an unsatisfactory performance review. No other salary increases (negotiated wage increases, merit increases) are contemplated.

While the specific objectives and results are between the Board and the President, the type of goals the Board approves for the President are consistent with best practice in annual evaluation of university presidents as described in publications of the Association of Governing Boards. UVic's Board typically approves a set of substantive, high-level, timely goals for the President each spring. In a given year, the goals and associated measures might include, for example:

- Achieve a balanced year-end budget and prepare the next budget that embodies the priorities identified in the strategic framework. In this regard, the Board would want to see a balanced budget that is effectively allocated towards priorities articulated in the strategic framework and associated plans, and those brought forward annually in the integrated planning process.
- Increase external relations activities and fund raising activity. In assessing whether this goal had been met, the Board would consider, for example, whether fundraising goals for the year had been met and the President's contributions to these goals.

Some goals are specific to a particular time period. For example, one past objective included revitalization of the university's strategic planning document into a new Strategic Framework. This was completed in 2018. Current year objectives include external communication and reputational advancement; and transitions and succession planning. Other goals, such as that with respect to a balanced budget, recur annually.

Vice-Presidents' objectives, and how they will be measured, are established by the President in discussions with each Vice-President. Measures may be qualitative or quantitative. The amount of merit pay is determined through the annual performance review process referenced above. Merit Pay for the Vice-Presidents is based on four merit increments. A Vice President may earn up to four merit increments in a year depending on performance. Each merit is worth  $\frac{1}{4}$  of 3% of the midpoint of the approved salary range.

## **MARKET ADJUSTMENTS**

Market adjustments may be included in addition to base salary. Market adjustments are normally determined at the time of hire or on re-negotiation of contract. Adjustments are made based on all or some of the following factors:

- the candidates' existing salary
- salary survey data
- other issues which affect the financial viability of the offer such as housing prices, loss of spousal income, loss of consulting opportunities
- concrete evidence of competing offers.

Market adjustments must meet the requirements of the University's approved compensation plan and are administered consistent with the market adjustment policy approved for UVic's Management Excluded staff.

## **HEALTH AND WELFARE BENEFITS, PENSION**

The Executive receive the same benefits as those received by other professional/academic employee groups at the University of Victoria. Supplementary Pension Plan contributions are made when Canada Revenue Agency maximums are reached.

## **LEAVES**

Vacation, special leave and other general leave entitlements are administered consistent with the terms and conditions of employment for Management Excluded staff at the University of Victoria.

The University acknowledges that research leaves for academic administrators are the competitive standard in Canada and are typically provided at the end of the contract to facilitate a return of the executive to academic rank. They are reasonably adjudicated and fully costed as they are earned as part of overall compensation.

The accumulation of research leaves is limited to eighteen (18) months irrespective of the number of contract renewals and limited to no more than (12) months for the first (5) year appointment.

## **PERQUISITES/REIMBURSEMENTS**

A determination as to whether a particular perquisite is required is based on: whether it is consistent with the overall compensation package, required to assist in the effective carrying out of the position's role, and whether the perquisite is offered by comparable and/or competing universities and/or to professional/academic employees at UVic, and consistent with the institution's role as a public institution. Perquisites must be cost effective for recruiting and retention purposes.

For the President, perquisites are negotiated by the Board as part of contract negotiations. For Vice-Presidents perquisites are negotiated with the President at the commencement of the Vice-President's contract. The President provides details of the Vice-Presidents' contracts to the Compensation and Review Committee of the Board for information purposes

Reimbursement for out-of-pocket expenses will be consistent with university policy for other professional/academic employee groups.

## **APPLICATION:**

The current, approved Executive Compensation Plan applies to the President, Vice-Presidents and Associate Vice Presidents at the University of Victoria.

Summary Compensation Table at 2020

Name and Position	Salary	Holdback/Bonus/ Incentive Plan Compensation	Benefits	Pension	All Other Compensation (expanded below)	2019/2020 Total Compensation	Previous Two Years Totals Total Compensation	
							2018/2019	2017/2018
James Cassels, President and Vice Chancellor	\$ 387,848	-	\$ 7,580	\$ 47,633	\$ 146	\$ 443,207	\$ 432,979	\$ 423,215
