## Public Sector Executive Compensation Reporting – Fiscal Year 2022/2023

### Compensation Philosophy of Simon Fraser University

#### Part I: Total Compensation Philosophy for SFU's Excluded and Executive Employees

The purpose of this Part is to outline SFU's philosophy as it relates to all excluded and executive employees' compensation. It is intended to guide the development, maintenance and administration of our total compensation programs based on a balance of best practices, fiscal responsibility, and the core principles as established by the Public Sector Employers Council (PSEC).

It is the objective of the University to pay its employees' salaries that are sufficiently competitive in the job market to attract and retain a high caliber of people and recognize the progression of employees as they assume the full scope and responsibility of their positions.

#### Core Principles:

- **Total Compensation** – compensation is planned, developed, communicated and administered as a total rewards package as defined below.
- **Alignment** – to the University's goal of attracting, retaining, and engaging the best qualified employees that align with the values and culture of SFU. And to the degree possible will recognize relevant total compensation plans afforded to employees governed by collective agreements.
- **Performance** – recognition of the importance and value of aligning individual and team based performance contributions to the overall institution's goals.
- **Differentiation** – of salary where there are differences in the scope, complexity, and responsibility of the position.
- **Equity and Fairness** – alignment and consistency with internal structures and process while balancing the need for external market competitiveness. The methodology and process will ensure equal pay opportunity for work of equal value.
- **Affordability** – within the Institution's financial planning framework and mandate.
- **Accountability** – compensation decisions are objective and based upon a clear and well documented business rationale that demonstrates the appropriate expenditure of public funds.
- **Flexibility** – ability to adapt to changing internal and external conditions.
- **Transparency** – programs are designed, managed and communicated in a manner that ensures the program is clearly understood by employees, the Institution, and the public while protecting individual personal information.
- **Social Responsibility** – SFU recognizes the importance of living wages and will ensure that as ongoing changes are made to compensation plans and policies, salary structures will reflect them.

## **Part II: Executive Compensation Policy B 10.08**

Policy Authority: President and Vice Chancellor

Associated Procedure(s): Performance Reviews and Salary Advancement for Executive Officers

### **1.0 PRINCIPLES**

1.1 The guiding principles of the compensation program for Executive Officers of Simon Fraser University are as follows:

1.1.1 Compensation levels must achieve a balance between fair value for work and the University's ability to pay.

1.1.2 Compensation levels reflect a measurement of job worth based on a composite of the skill, effort, responsibility and working conditions required to perform the work.

1.1.3 Compensation levels must be competitive within the external market from which it recruits. The external market includes local, provincial and national public and private sector employers, including similar positions at other North American universities.
