COMPENSATION PHILOSOPHY

Our compensation philosophy reflects the following principles:

- Compensation decisions should be objective
- Compensation should reflect job attributes
- Compensation should reflect performance
- Employees and the public should understand our compensation program

We strive to offer median compensation.

For roles that require securities industry expertise, we benchmark against comparable legal and accounting positions, the securities industry, and other securities regulators. For other roles, we benchmark against competing public sector organizations including the BC Financial Services Authority, other provinces, and against private sector organizations when comparable public sector benchmarks are not available. To remain competitive, we conduct periodic salary surveys and propose adjustments when surveyed position salaries are significantly below the median.

We award performance-based salary increases. We meet with employees to review and formally document their performance, at least annually.

We maintain a comprehensive compensation and performance management policy for employees. We publish our policy for compensating independent commissioners, an annual *Financial Information Act* report, and annual executive compensation disclosure.
